

Ranjith V

Full-Stack Developer · MERN Stack · React.js · Node.js

Coimbatore, India | 8248307360 | v.ranjith9095490240@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Summary

Aspiring Full-Stack Developer specializing in the **MERN stack** (MongoDB, Express.js, React.js, Node.js) and serverless architectures. Proven track record in engineering scalable **web applications**, **RESTful APIs**, and robust automated ETL data pipelines. Adept at translating complex business requirements into clean, optimized code. Currently advancing expertise in full-stack methodologies to build highly responsive, user-centric software solutions.

Technical Skills

Programming Languages: Java (OOP, DSA), JavaScript (ES6), SQL, Python

Frameworks & Libraries: React.js, Node.js, Express.js, REST APIs, Redux, HTML5, CSS3, Bootstrap

Cloud & Databases: AWS(Basic), MySQL, MongoDB

Tools: Talend ETL, Git, GitHub, VS Code, Figma

EXPERIENCE

Algo Analytics – Full-Stack Intern

July 2025 – October 2025

- Engineered responsive and dynamic web applications utilizing **React.js** for the frontend, ensuring cross-browser compatibility and optimized user interfaces.
- Developed robust backend architectures integrating **Java and Python**, streamlining data flow and overall system performance.
- Collaborated with cross-functional teams to seamlessly integrate APIs and enhance data-driven application functionality.

Virtusa – Data Engineering Intern

January 2023 – June 2023

- Designed and implemented automated **ETL (Extract, Transform, Load) pipelines** utilizing **Talend and MySQL**, significantly improving enterprise data accuracy and accessibility.
- Optimized complex database queries to support efficient **data ingestion, processing**, and reporting workflows.
- Contributed to data engineering practices that fortified the underlying infrastructure for analytics and visualization capabilities.

PROJECTS

Tech Shop (MongoDB, Express.js, Node.js, React.js) [[Live Demo](#)]

- Built a full-stack web application using **MongoDB, Express, React, and Node.js with Redux Toolkit** for state management.
- Developed a complete shopping cart flow and integrated the **PayPal SDK** for real-time order processing.
- Implemented JWT, bcrypt authentication and role-based access for admins to manage products, users, and orders.

Personal Finance Tracker (React.js, Firebase, Ant Design) [[Live Demo](#)]

- Built a full-stack **React and Firebase** finance tracker featuring secure Google/Email **authentication** and protected routing.
- Developed interactive financial dashboards using Ant **Design charts** to visualize real-time income and spending trends.
- Implemented efficient CSV import/export features for bulk transaction management using asynchronous data processing.

EDUCATION

AccioJob

October 2025 – Present

MERN Full-Stack Development

Sri Eshwar College of Engineering

August 2019 – May 2023

Bachelor of Engineering in Computer Science

CGPA: 8.91
